

Goa Single Window System

User Manual

Goa Single Window System was developed under the e-District and Ease of Doing Business initiatives undertaken by the state of Goa. The aim of this online platform is to bring all government-to-citizen (G2C) and government-to-business (G2B) services, respectively, in one common place to facilitate the users. The online system has end-to-end functionality so that users do not have to visit various departments. Furthermore, the online system is completely transparent.

The main features of the single window system are:

- Common online application and user profile
- Online document submission
- Online payment
- Online submission of complete application with status tracking
- Online intimation of department remarks and final response
- Digitally issued certificates/licenses/permissions
- Online download of certificates/licenses/permissions
- Online dashboard for all departments and services showing total number of applications received and disposed of, average and median time taken for processing applications
- Central Inspection System for Department of Labour, Inspectorate of Factories and Boilers, Department of Legal Metrology and Goa State Pollution Control Board
- Third party verification of validity of certificates/licenses/permissions
- Online document repository for storing digital documents

With the above features, the single window eliminates all physical touchpoints between the users and various government departments. Features such as common application and document repository (digilocker) also provide added convenience to the users so that they don't have to provide the same information multiple times.

Goa Investment Promotion and Facilitation Board (IPB) is the state Investment Promotion Agency (IPA) and the owner of the G2B single window system. The same may be accessed through the website of IPB at <https://www.goaipb.goa.gov.in/single-window/>. For G2C services, e-District portal may be accessed through the Goa Online website at <https://goaonline.gov.in/HomePage>.

Both platforms are developed and maintained by Goa Electronics Limited (GEL). While the registration for business users and citizen users is separate, both platforms are inter-linked for added convenience.

Save & Next

Complete all mandatory fields and other information that is available. Save and proceed to next step

You can add multiple units to your profile. At the time of applying for a service, simply select the unit for which the application is being made, all relevant information will be fetched from the profile.

Online Application

The screenshot shows the GOA Investment Facilitation Board website. The top navigation bar includes links for Covid-19, Home, About Us, Inbox, Services, Tracking, Profile, Notification, and My Menu. The main header features the GOA Invest logo and the text "GOA INVESTMENT FACILITATION BOARD". A dropdown menu for "Services" is open, listing options: Service Selection Wizard, All Services, Citizen Services, Ease of Doing Business, Payment Services, IT Services, Incentives, and Services Dashboard. The "All Services" option is highlighted with a red box. Below the header, there is a section for "Business Entity/Register your Organization" with a "User Manual" button. A sidebar on the left shows a "Test_business_BRAP2019" entry with "Add New Unit" and "Submit proposal for a new unit" buttons. A message states "No registered units added. Click Add new unit button to link a registered unit."

All services may be accessed through the profile page. Select services menu option. For G2B services, select Ease of Doing Business. For G2C services, select Citizen Services. Alternatively, you can select All Services and the list as shown on pages 2-7 will be displayed. Select on desired service and proceed to online document upload and payment as shown below:

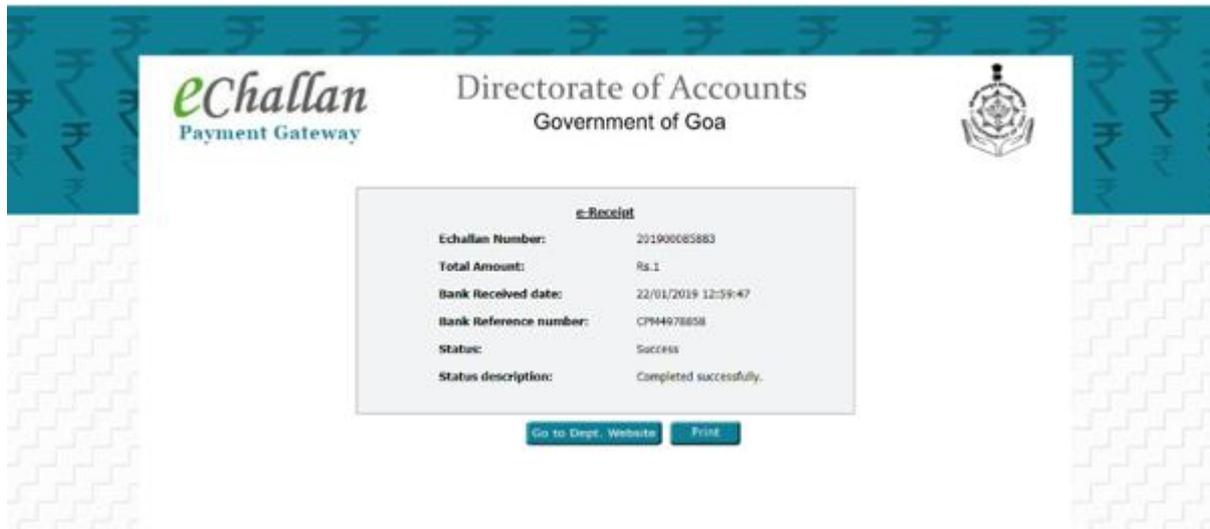

List of documents to be uploaded will appear on the right side. On the left side, select the document from your system and the appropriate category from the dropdown options. Once all required documents have been uploaded, a checkbox will appear next to each category or type of document.

The screenshot shows the "Choose & Upload Documents" screen. On the left, there are dropdown menus for "Type of Document*" and "Document*", a "Choose File" button, and a "Save & Upload" button. A "Declaration" section is also present. On the right, a "List of Mandatory Documents" is displayed, including items like Boiler Certificate, Design Drawing, FORM II(1), FORM III, FORM IV-A, IBR Calculation sheet, and IBR test certificate of mountings and fittings. Each item has a checkbox and a "Sample.pdf" link.

Payment screen will appear with details such as the application ID, name of applicant, amount, etc. Verify the amount and click on proceed to pay

The screenshot shows the "Payment Request Confirmation" screen. It displays fields for "Acknowledgement No:", "Application ID:", "Party Name:", "Towards:", and "Amount Payable:". Below these fields is a "Payee Details:" section. At the bottom, there are two buttons: "Proceed to pay Rs. 1" and "Cancel".

Once your payment is made, you will receive an e-challan receipt in the format shown below:

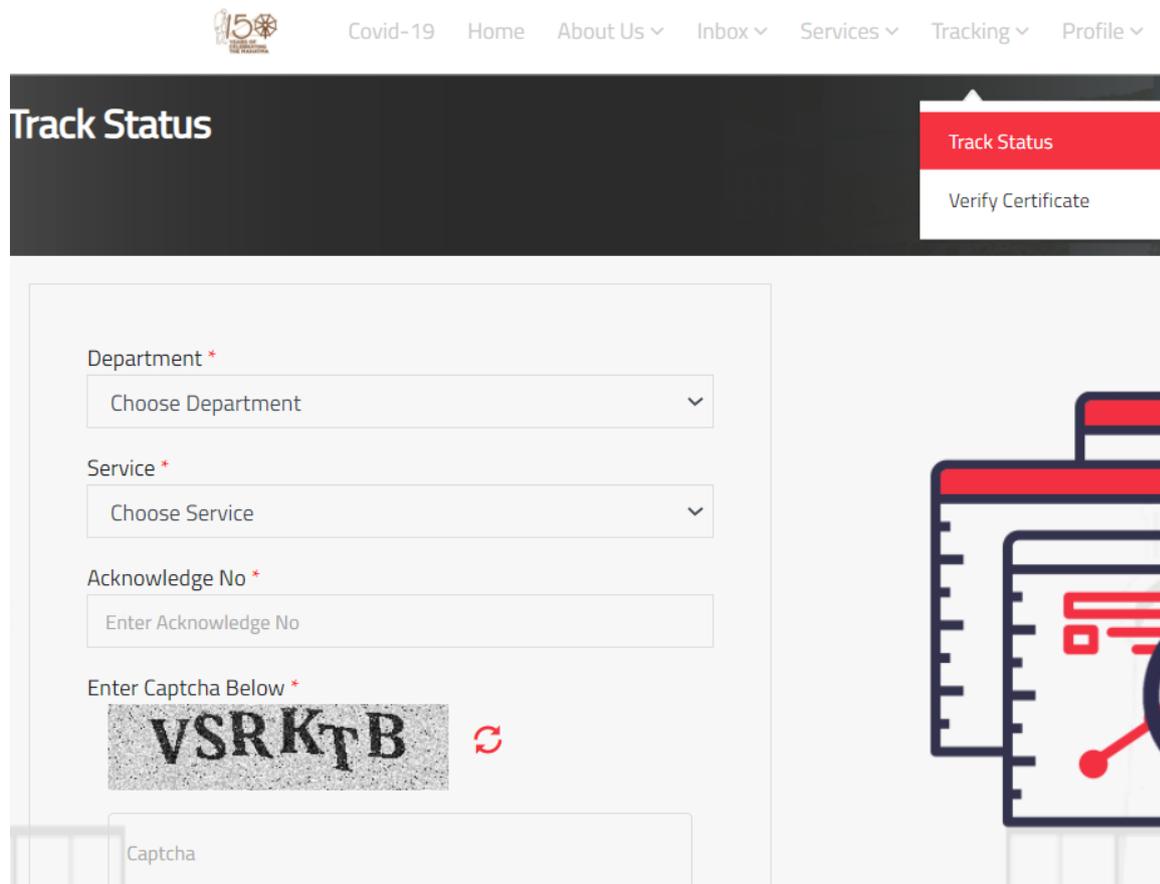

Acknowledgement number is generated which can be used for tracking purpose. Format shown below:

Online Application Tracking and Download

You will receive email and SMS updates on the email ID and mobile number provided at the time of registration. You can also log into your user dashboard to monitor the status of all your online applications in one place.

Alternatively, you can also use the Tracking page to enter the application details and track the status of your application.

The screenshot shows the 'Track Status' page of a web application. At the top, there is a navigation menu with the following items: Covid-19, Home, About Us, Inbox, Services, Tracking, and Profile. The 'Tracking' menu item is currently selected, and a dropdown menu is visible with two options: 'Track Status' (highlighted in red) and 'Verify Certificate'. The main content area is titled 'Track Status' and contains a form with the following fields:

- Department ***: A dropdown menu with the text 'Choose Department' and a downward arrow.
- Service ***: A dropdown menu with the text 'Choose Service' and a downward arrow.
- Acknowledge No ***: A text input field with the placeholder text 'Enter Acknowledge No'.
- Enter Captcha Below ***: A captcha image showing the characters 'VSRKT B' on a textured background, with a red refresh icon to its right.
- Captcha**: A text input field for entering the captcha characters.

On the right side of the form, there is a decorative graphic of a computer monitor displaying a network diagram with red and blue lines and nodes.

Instructions for Citizen Users

Citizen users may visit Goa Online at <https://goaonline.gov.in/> and click on register to create a profile.

In order to register, you must provide a valid email ID, mobile number and Aadhaar number. Aadhaar number is required to create your personalised digilocker and for e-signing applications and other declarations. Please ensure that your Aadhaar number is linked to the correct mobile number for OTP verification purpose.

| | |
|------------------------|---------------------------|
| Name as per Aadhaar *: | Aadhaar No./Virtual Id *: |
| <input type="text"/> | <input type="text"/> |
| Country *: | Date of Birth *: |
| India ▼ | <input type="text"/> |
| Address * | |
| <input type="text"/> | |
| Email *: | Mobile No. *: |
| <input type="text"/> | <input type="text"/> |

| <input type="text"/> | GOA ▼ |
| Taluka *: | Village *: |
| <input type="text"/> | <input type="text"/> |
| Pincode *: | |
| <input type="text"/> | |

Once the registration is complete, a user profile is created with basic information that is required by all departments. Beyond this step, same process is followed as that for business users. Please note that if a citizen user wishes to avail G2B services, a business profile will have to be created.

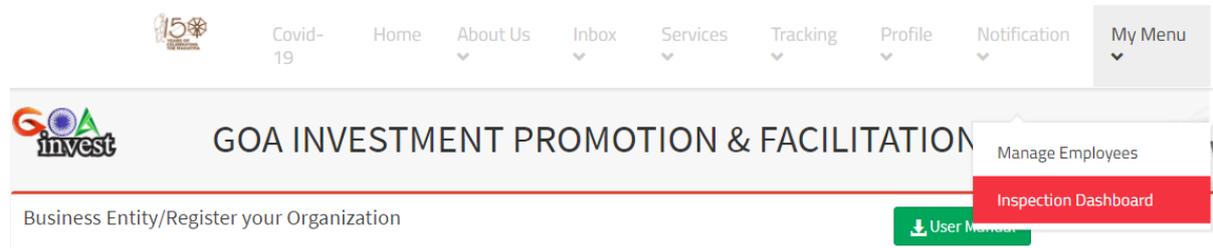

Central Inspection System

With the Central Inspection System (CIS) of the single window, department such as Labour, Factories and Boilers, Legal Metrology and Pollution Control Board, are now able to schedule joint inspections online in a fully automated and randomized manner. This eliminates any possibility of favouritism or other bias in the way inspections are done. Concerned departments have come up with their respective risk-based classification of businesses. These risk classifications are programmed in the CIS which randomly selects businesses for inspection as and when they become eligible. Jurisdiction-wise inspectors are also programmed in the system. Inspectors are randomly allocated to businesses and the same inspector is not assigned to the same business in consecutive years.

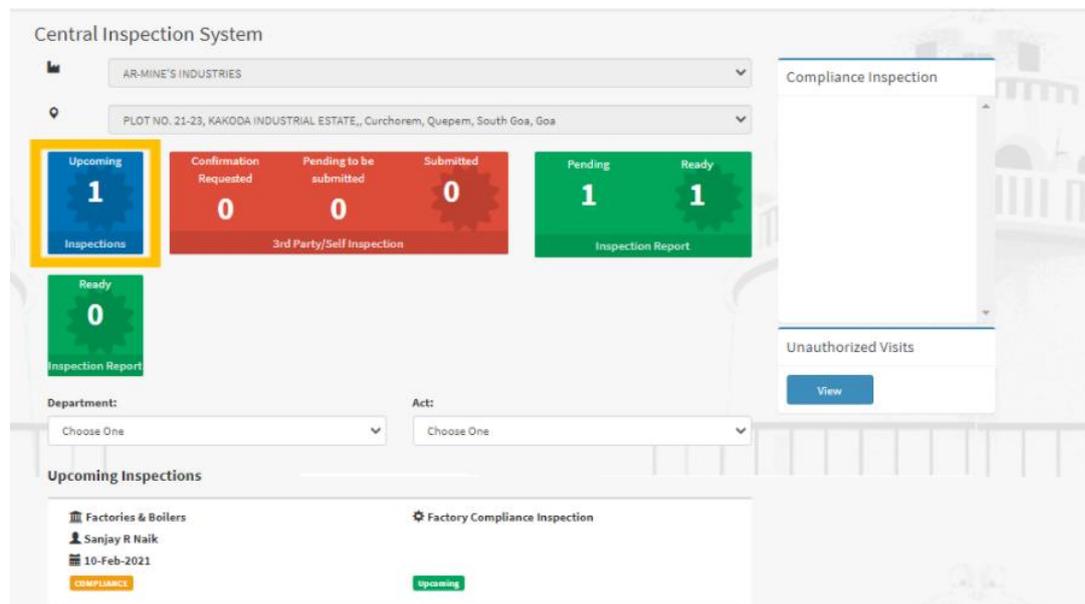

Business users can see their upcoming inspections through their CIS dashboard. They can also view and download the digitally-prepared inspection report within 48 hours of the completed inspection. Besides the regularly scheduled compliance inspections, the departments may conduct surprise inspections in case they are in receipt of complaints. In such cases, no prior notification will be given to the business, however, such inspections can only be scheduled after the same has been authorized

by the concerned Heads of the Department. In case of an authorized visit by an inspector, the business can report the same using the CIS dashboard.

To access your CIS dashboard, please login to your business account and select on My Menu. Click on Inspection Dashboard

Sample dashboard shown below:

NOTE: Inspection shown is for demonstration purpose only.

Online Service Dashboard

In order to bring complete transparency in online service delivery, an exhaustive dashboard of all online services has been made available in the single window. Users do not need to register to view this dashboard. Simply visit the Goa Online page, select on Services and click on Service Dashboard. On the following page, you may click on the + sign against the department name to see all services under that department. Sample shown below

Third Party Verification

The online single window system can also be used by third parties to verify the validity and legitimacy of documents issued through the online mode. Third parties such as financial institutions may require to verify documents such as Trade Licence, Shops Registration, Pollution Control Board Consents, etc. for purposes of loan sanctions or other grants and aid. In other cases, citizens may wish to verify licenses for contractors that are issued by state departments before hiring them for services. In such cases, instead of relying on the licensee, the third parties can simply type the license number in the online single window and verify if the same is valid. This online process eliminates the possibility of falsification of records and prevents fraud.

To access this feature of the single window, visit the Goa Online page and select the Tracking option from menu. Click on Verify Certificate. Please note that users do not have to register to access this feature.

In the following page, select the desired department, name of the service/license and license/certificate number. Complete Captcha verification. The output will be displayed on the right side of the screen. Sample shown below.
